Ecrits maçonniques: Essai sur les sciences occultes (French Edition) Salvatore Cinque

Ce livre est le fruit d'une réflexion d'inspiration philosophique, psychologique et symbolique dont l'évolution a été progressive sur les dernières années du XXe siècle. Le coeur de cette réflexion a toujours été l'architecture sacrée du Temple maçonnique et, par conséquent, de l'Homme dans ce qu'il a de plus vénérable, architecture à laquelle il est possible d'accéder par la connaissance du symbolisme des nombres. En cela, ce livre s'enracine au sein de la philosophie pythagoricienne. Son but est de mettre en évidence l'existence en chaque être humain d'une science inconsciente de nature symbolique qui le pousse, notamment, à adopter dans l'espace d'une consultation médicale singulière une position bien déterminée qui dit le vrai sur ses prédispositions génétiques et qui le relie à l'universalité du genre humain.

L'auteur a été initié à l'Orient de Montpellier dans la Respectable Loge « Ere nouvelle » du Grand Orient de France. Médecin formé dans l'université de médecine la plus ancienne d'Europe, il est devenu psychiatre. Il pratique, maintenant depuis trente six ans, une discipline où l'apport de la psychanalyse tient une grande part, sans négliger l'intérêt des autres courants de pensée. Parmi ses livres à paraître, citons les *Etudes psychologiques*, les *Ecrits symboliques* et les *Fragments apocalyptiques*.
