Sustaining Corporate Growth: Harnessing Your Strategic Strengths

The classic nursery story of "Jack and the Beanstalk" reads like a business dream come true: risky deal promises great returns, is scorned by skeptics, and ultimately results in phenomenal growth and profits. In the business world, Jack's fairy-tale experience is mirrored in the experiences of a select group of companies. The common thread: larger-than-life growth accompanied by risk, obstacles, and incredible profits. And with growth becoming increasingly essential to creating and maintaining shareholder value, such stellar examples have much to teach the rest of us.
