An Endless Sea of Stars

Jamie Lynn Miller

An Endless Sea of Stars Jamie Lynn Miller

The year is 2121. While Earth has conquered exploration of the Milky Way, we have yet to develop an interstellar engine to take us beyond our own galaxy. Thus the Intergalactic Exploration Alliance and the Gemini Project were formed.

Lieutenant Tobias Dekker is fresh out of the IEA academy and determined to be assigned to the Gemini engineering team. Putting career above all else. He knows from experience that relationships have no place in the Alliance. Commander Caden Flynn is equally determined to see the Gemini prototype take flight to uncharted space. The engine is his late father's design and he wants nothing more than to be the test pilot that breaks the next light speed barrier.

Two men dreaming of a sea of stars find that it's instead an ocean here on Earth that brings them together. Can Cade convince Toby to open up his heart and take a chance on love and explore the universe with him, side by side?
