Wasserundurchlässige Schalungsanker (German Edition) Werner Nehls

Wissenschaftlicher Aufsatz aus dem Jahr 2004 im Fachbereich Ingenieurwissenschaften -

Bauingenieurwesen, Note: keine, , 7 Quellen im Literaturverzeichnis, Sprache: Deutsch, Abstract: Bei den früheren Schwarzabdichtungen gegen Hang- und Druckwasser spielte die Dichtigkeit der Schalungsanker keine Rolle. Seit über 35 Jahren sind "Weiße Wannen" aus wasserundurchlässigem Beton (wu Beton) an ihre Stelle getreten. Sie sind kostengünstiger und einfacher herzustellen. Der beste wu Beton nützt jedoch nichts, wenn die Spannstellen undicht sind.

Dieselben Dichtungstechniken werden in Betonwänden erforderlich für Schall-, Brand- und Strahlenschutz, Gasdichtigkeit und Einbruchssicherheit.

Architekten, Bauingenieure, Bauleiter und Baufirmen beachten die Problematik und Kosten von wu Spannankern zu wenig. Über Planung, Ausschreibung und Ausführung erfährt man in der Fachliteratur wenig. Die Beseitigung von Bauschäden im Erdreich ist besonders kostenaufwendig.

Der "Verband privater Bauherren" stellte 2003 fest, dass undichte Keller von Neubau-Wohngebäuden mit 87% an der Spitze aller schadenträchtigen Gebäudeteile stehen. Hier kann in der Ausbildung und im Informationsverhalten der einschlägigen Industrie etwas nicht stimmen.

From reader reviews:

Marvin Perdue:

What do you about book? It is not important along with you? Or just adding material when you require something to explain what you problem? How about your time? Or are you busy man? If you don't have spare time to do others business, it is make you feel bored faster. And you have time? What did you do? Every individual has many questions above. They need to answer that question because just their can do that. It said that about reserve. Book is familiar on every person. Yes, it is proper. Because start from on guardería until university need this particular Wasserundurchlässige Schalungsanker (German Edition) to read.

Jane Riley:

That book can make you to feel relax. This specific book Wasserundurchlässige Schalungsanker (German Edition) was colorful and of course has pictures around. As we know that book Wasserundurchlässige Schalungsanker (German Edition) has many kinds or style. Start from kids until youngsters. For example Naruto or Private eye Conan you can read and believe you are the character on there. Therefore not at all of book usually are make you bored, any it makes you feel happy, fun and relax. Try to choose the best book to suit your needs and try to like reading which.

Pedro Engle:

As a student exactly feel bored for you to reading. If their teacher questioned them to go to the library or even make summary for some book, they are complained. Just small students that has reading's heart or real their pastime. They just do what the trainer want, like asked to the library. They go to right now there but nothing reading critically. Any students feel that examining is not important, boring along with can't see colorful images on there. Yeah, it is being complicated. Book is very important for you. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore , this Wasserundurchlässige Schalungsanker (German Edition) can make you experience more interested to read.

Eddie Horton:

Book is one of source of expertise. We can add our expertise from it. Not only for students but native or citizen need book to know the up-date information of year for you to year. As we know those books have many advantages. Beside most of us add our knowledge, can bring us to around the world. By the book Wasserundurchlässige Schalungsanker (German Edition) we can consider more advantage. Don't one to be creative people? For being creative person must choose to read a book. Simply choose the best book that suited with your aim. Don't always be doubt to change your life at this time book Wasserundurchlässige Schalungsanker (German Edition). You can more desirable than now.
