The Technology of Property Rights (The Political Economy Forum)

The Technology of Property Rights (The Political Economy Forum)

The Technology of Property Rights combines the understanding of institutions and institutional change with a discussion of the latest technologies and their influence on the measurement and monitoring of property rights. The contributors analyze specific applications for fisheries, whales, water quality, various pollutants, as well as other pressing environmental issues. No other work brings together an economic understanding of environmental issues with technological expertise in the way this volume does.
