The Laws of History (Routledge Studies in History of Economics) Graeme Snooks

This is an original and controversial reflection on the course of human history and a remarkable attempt to develop a scientific model of laws for the social sciences. It:

- * considers the nature of laws and the reasons we might expect to find them in history
- * employs an underlying framework concerning societal dynamics, historical change, and institutional change, which are in fact the laws of history.

This volume consolidates the author's previous research in *The Dynamic Society* and *The Ephemeral Civilization*.
