Intellectual Property Law and Policy: Volume 11 (Fordham Intellectual Property Law and Policy Annual)

This is the annual volume of a series that collects the presentations and discussions from the annual Fordham Intellectual Property Conference. The contributions - by leading world experts - analyze the most pressing issues in copyright, trademark, and patent law, as seen from the perspectives of the US, the European Union, Asia, and the World Intellectual Property Organization. In common with its predecessors, Volume 11 makes a valuable and lasting contribution to the discourse in intellectual property law. The contents, while always informative, are also critical and questioning of new developments and policy concerns. This book will be an important reference point for judges, practitioners, and policy makers.
