Design and Development Research: Methods, Strategies, and Issues Rita C. Richey, James D. Klein

AECT Design & Development Outstanding Book Award for 2008!

Design and Development Research thoroughly discusses methods and strategies appropriate for conducting design and development research. Rich with examples and explanations, the book describes actual strategies that researchers have used to conduct two major types of design and development research: 1) product and tool research and 2) model research. Common challenges confronted by researchers in the field when planning and conducting a study are explored and procedural explanations are supported by a wide variety of examples taken from current literature. Samples of actual research tools are also presented. Important features in this volume include:

- concise checklists at the end of each chapter to give a clear summary of the steps involved in the various phases of a project;
- an examination of the critical types of information and data often gathered in studies, and unique procedures for collecting these data;
- examples of data collection instruments, as well as the use of technology in data collection; and
- a discussion of the process of extracting meaning from data and interpreting product and tool and model research findings.

Design and Development Research is appropriate for both experienced researchers and those preparing to become researchers. It is intended for scholars interested in planning and conducting design and development research, and is intended to stimulate future thinking about methods, strategies, and issues related to the field.

From reader reviews:

Christopher Milbrandt:

Reading a guide can be one of a lot of activity that everyone in the world really likes. Do you like reading book therefore. There are a lot of reasons why people like it. First reading a publication will give you a lot of new facts. When you read a publication you will get new information mainly because book is one of numerous ways to share the information or perhaps their idea. Second, reading through a book will make you actually more imaginative. When you looking at a book especially fictional book the author will bring someone to imagine the story how the character types do it anything. Third, it is possible to share your knowledge to some others. When you read this Design and Development Research: Methods, Strategies, and Issues, you could tells your family, friends and also soon about yours book. Your knowledge can inspire the others, make them reading a e-book.

James Dungan:

Reading a book to become new life style in this calendar year; every people loves to read a book. When you learn a book you can get a large amount of benefit. When you read guides, you can improve your knowledge, simply because book has a lot of information onto it. The information that you will get depend on what forms of book that you have read. If you want to get information about your review, you can read education books, but if you want to entertain yourself you are able to a fiction books, such us novel, comics, and also soon. The Design and Development Research: Methods, Strategies, and Issues offer you a new experience in reading through a book.

Emma Latshaw:

As a pupil exactly feel bored to help reading. If their teacher expected them to go to the library or even make summary for some book, they are complained. Just tiny students that has reading's heart or real their passion. They just do what the teacher want, like asked to the library. They go to presently there but nothing reading really. Any students feel that examining is not important, boring and also can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this Design and Development Research: Methods, Strategies, and Issues can make you feel more interested to read.

Richard Swisher:

A number of people said that they feel bored stiff when they reading a publication. They are directly felt this when they get a half regions of the book. You can choose the actual book Design and Development Research: Methods, Strategies, and Issues to make your own reading is interesting. Your own personal skill of reading ability is developing when you including reading. Try to choose very simple book to make you enjoy to learn it and mingle the feeling about book and studying especially. It is to be first opinion for you to

like to wide open a book and go through it. Beside that the publication Design and Development Research: Methods, Strategies, and Issues can to be your new friend when you're sense alone and confuse with what must you're doing of this time.
