Lois McMaster Bujold (Modern Masters of Science Fiction)

Edward James

Lois McMaster Bujold (Modern Masters of Science Fiction) Edward James

Readers have awarded Lois McMaster Bujold four Hugo Awards for Best Novel, a number matched only by Robert Heinlein. Her Vorkosigan series redefined space opera with its emotional depth and explorations of themes such as bias against the disabled, economic exploitation, and the role of women in society.

Acclaimed science fiction scholar Edward James traces Bujold's career, showing how Bujold emerged from fanzine culture to win devoted male and female readers despite working in genres--military SF, space opera--perceived as solely by and for males. Devoted to old-school ideas such as faith in humanity and the desire to probe and do good in the universe, Bujold simultaneously subverted genre conventions and experimented with forms that led her in bold creative directions. As James shows, her iconic hero Miles Vorkosigan--unimposing, physically impaired, self-conscious to a fault--embodied Bujold's thematic concerns. The sheer humanity of her characters, meanwhile, gained her a legion of fans eager to provide her with feedback, expand her vision through fan fiction, and follow her into fantasy.
