The Changing Geography of Banking and Finance

The editors and contributors tackle a timely subject, and present rigorous research and analysis to demonstrate counter-intuitive results. In so doing, they reinforce the connections between organization and policy in the banking industry and its impact on entrepreneurship, through lending and credit to small and medium-sized businesses. The editors present a carefully organized manuscript that presents both literature reviews and the results of original empirical research that will be of interest to academics and professionals in finance, economics, and policy. The authorship and coverage are global. One of the authors, Michele Fratiani, has close ties to Springer, by virtue of his being a founding editor of *Open Economies Review* and co-editor of the book series, *European and Transatlantic Studies*.
