**Manthropology: The Science of Why the Modern Male Is Not the Man He Used to Be** Peter McAllister

*Manthropology* is the first of its kind. Spanning continents and centuries, it is an in-depth look into the history and science of manliness. From speed and strength, to beauty and sex appeal, to bravado and wit, it examines how man today compares to his masculine ancestors.

Peter McAllister set out to rebut the claim that man today is suffering from feminization and emasculation. He planned to use his skills as a paleoanthropologist and journalist to write a book demonstrating unequivocally that man today is a triumph---the result of a hard-fought evolutionary struggle toward greatness.

As you will see, he failed. In nearly every category of manliness, modern man turned out to be not just matched, but bested, by his ancestors. Stung, McAllister embarked on a new mission. If his book couldn't be a testament to modern male achievement, he decided, it would be a record of his failures.

*Manthropology*, then, is a globe-spanning tour of the science of masculinity. It kicks off in Ice Age France, where a biomechanical analysis demonstrates that La Ferrassie 2, a Neanderthal *woman* discovered in the early 1900s, would cream 2004 World Arm Wrestling Federation champion Alexey Voyevoda in an arm wrestle. Then it moves on to medieval Serbia, showing how Slavic *guslar* poets (who were famously able to repeat a two thousand-line verse after just one hearing) would have destroyed Curtis Jackson, aka 50 Cent, in a battle rap. Finally, it takes the reader to the steaming jungles of modern equatorial Africa, where Aka Pygmy men are such super-dads, they even grow breasts to suckle their children. Now, *that's* commitment.

For modern man, the results of these investigations aren't always pretty. But in its look at the history of men, *Manthropology* is unfailingly smart, informative, surprising, and entertaining.
