Migration, Culture Conflict, Crime and Terrorism (Advances in Criminology) Rob T. Guerette

Immigration and its consequences is a substantially contested subject with hugely differing viewpoints. While some contend that criminal participation by migrants is the result of environmental factors found in the host country that are beyond the control of migrants, others blame migrants for all that is wrong in their communities. In this book, experts from Europe, the USA, Turkey and Israel examine recent developments in the fields of culture conflict, organized crime, victimization and terrorism, all of which intersect to varying degrees with migration and illegal conduct. While the essays further our understanding of a variety of issues surrounding migration, at the same time they illuminate the complexities of managing the challenges as globalization increases.
