More-over, it has been the world's tallest building from 1973-1998. The first skyscrapers were invented in the late 1800s and Chicago has played a major role in the invention. It has been the site of many of the skyscrapers' stylistic and technical ad-vances. In the phenomenal growth years after the Chicago Fire of 1871, a pool of architectural talent known as the First Chicago School advanced the skyscraper form we know now. This is the reason why the city is also known as "the birthplace of skyscrapers".
