New Technologies, Mobility and Security Houda Labiod, Mohamad Badra

NTMS'2007 is the first IFIP International Conference on New Technologies, Mobility and Security that was held from May 2 to May 4, 2007 in Paris, France. NTMS'2007 aims at fostering advances in the areas of New Technologies, Wireless Networks, Mobile Computing, Ad hoc and Ambient Networks, QoS, Network Security and E-commerce, to mention a few, and provides a dynamic forum for researchers, students and professionals to present their state-of-the-art research and development in these interesting areas. The event was combined with tutorial sessions and workshops. Tutorials preceded the main program, aiming at the dissemination of mature knowledge and technology advances in the field. One Workshop immediately followed the main conference, offering the opportunity for a more focused exchange of ideas and presentation of on-going research relevant to selected topics.

From reader reviews:

Genoveva Johnson:

This New Technologies, Mobility and Security book is simply not ordinary book, you have after that it the world is in your hands. The benefit you obtain by reading this book is usually information inside this reserve incredible fresh, you will get data which is getting deeper an individual read a lot of information you will get. That New Technologies, Mobility and Security without we understand teach the one who studying it become critical in considering and analyzing. Don't possibly be worry New Technologies, Mobility and Security can bring whenever you are and not make your bag space or bookshelves' turn into full because you can have it in the lovely laptop even cellphone. This New Technologies, Mobility and Security having great arrangement in word along with layout, so you will not feel uninterested in reading.

Herman Pruitt:

As people who live in the actual modest era should be change about what going on or information even knowledge to make these people keep up with the era and that is always change and move forward. Some of you maybe will certainly update themselves by studying books. It is a good choice for you personally but the problems coming to a person is you don't know what kind you should start with. This New Technologies, Mobility and Security is our recommendation to make you keep up with the world. Why, as this book serves what you want and wish in this era.

Rosemary Till:

Nowadays reading books become more than want or need but also work as a life style. This reading practice give you lot of advantages. Associate programs you got of course the knowledge your information inside the book that improve your knowledge and information. The info you get based on what kind of publication you read, if you want have more knowledge just go with education books but if you want really feel happy read one using theme for entertaining including comic or novel. Often the New Technologies, Mobility and Security is kind of guide which is giving the reader unstable experience.

Lavone Anderson:

Reserve is one of source of understanding. We can add our expertise from it. Not only for students but also native or citizen will need book to know the upgrade information of year to year. As we know those guides have many advantages. Beside we all add our knowledge, can also bring us to around the world. Through the book New Technologies, Mobility and Security we can take more advantage. Don't you to be creative people? For being creative person must love to read a book. Just choose the best book that ideal with your aim. Don't become doubt to change your life with that book New Technologies, Mobility and Security. You can more pleasing than now.
