What happened to the Neanderthals? Was Adam the first man? The search for the answers to these questions points to a larger question: Are science and Christianity on opposite sides of a gulf, or is there reason to believe there is a bridge between them? *Science and Christianity Reconciled and Satan Exposed* starts with prehistory and includes a description of dinosaurs with never-before-published pictures of various species in their most probable natural habitat in beautiful full color. This investigation into the origin of mankind is based on truth and fact, not theory. Dr. Wendell Hornback brings a perspective to this issue that gives just weight to both sides of this debate. Written after many years of research into the works of some of the most gifted minds on earth, *Science and Christianity Reconciled and Satan Exposed* gets its final answers on evolution, prehistory, and the early history of mankind straight from the best-selling and most-trusted book in the history of the world, the Bible.
