Second in a series (following *Sydney & Simon: Full STEAM Ahead*) that celebrates the STEAM approach (exploration through science, technology, engineering, arts, and math), this latest adventure inspires Sydney and Simon to consider how trash affects the environment. Once Sydney's favorite nature show reveals how garbage can get into the ocean and harm sea life, she won't rest until she and her twin brother, Simon, reduce waste at home and at school. Together the creative duo gets friends and family recycling, reusing, and even singing and playing instruments made from repurposed trash. From the Hardcover edition.
