Von Georgievics

The Chemical Technology of Textile Fibres - Their Origin, Structure, Preparation, Washing, Bleaching, Dyeing, Printing and Dressing Von Georgievics

This early work on textile chemistry is both expensive and hard to find in its first edition. It contains details on the chemical technology of processes such as dyeing and bleaching. This is a fascinating work and is thoroughly recommended for anyone interested in the textile industry. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.
